

Poster Session		
	Authors	Presentation Title
P-1	Sukhbat, P., and Niiden, I.	Palynological Study of the Alag Togoo Coal Deposit
P-2	Yukawa, H., Sun, G., and Suzuki, S.	New Data on Revision of the Nariwa Flora of Japan in Age and Its Stratigraphic Sequence
P-3	Nakamura, H., Ando, T., Yano, H., Oyama, N., Kubota, A., Iba, Y., and Yamada, T.	Amber Terpenoids: Initial Chemical Insights into Resin-Producing Trees in the Cretaceous and Paleogene of Japan
P-4	Jang, J-H., Oyama, N., and Nam, G-S.	New Pachymeridiidae (Insecta: Heteroptera: Pentatomomorpha) Fossils from the Lower Cretaceous Jinju Formation, Republic of Korea and Reassessment of Some Pachymeridiidae Taxa
P-5	Oyama, N., Yukawa, H., Imai, T., and Azuma, Y.	Insect-Bearing Horizon of the Upper Cretaceous Omichidani Formation (Katsuyama, Fukui, Japan): Insights from the Goshogahara Locality
P-6	Kamimura, M., Nagata, M., Ando, T., Hoyanagi, K., Usui, Y., Niki, S., Hirata, T., and Hasegawa, T.	The Regional Correlation Based on Carbon Isotope Stratigraphy toward Composite Stratigraphy of the Upper Jurassic to Lower Cretaceous Tetori Group, Central Japan
P-7	Tsuji, M., Sawada, Y., Tanaka, T., and Saneyoshi, M.	Sedimentary Environments and Tuff Characteristics of the Ohyamashimo Formation, Lower Cretaceous Sasayama Group, Southwest Japan
P-8	Seki, A., and Jenkins, R.	Late Cretaceous Wood-Boring Bivalves (Pholadoidea) from the Yezo Group in Hokkaido, Japan: Spatiotemporal Distribution and Inferred Feeding Strategies of the Genus <i>Turnus</i>
P-9	Asato, K., Nakayama, K., and Noda, Y.	Preliminary Taxonomy of the Freshwater Gastropods from the Early Cretaceous of Japan
P-10	Kawatsuki, Y., Amimoto, M., Nitta, Y., Toyoda, S., Chiba, K., Batsaikhan, B., Mainbayar, B., Tsogtbaatar, K., and Saneyoshi, M.	Quartz ESR Characteristics to Establish Lithostratigraphic Frameworks in the Upper Cretaceous and Paleogene in the Gobi Desert of Mongolia
P-11	Fujii, Y., Takeya, Y., Aoki, K., Chiba, K., Tsogtbaatar, K., Mainbayar, B., Batsaikhan, B., and Saneyoshi, M.	In Situ U–Pb Dating of Caliche to Constrain the Depositional Ages of Vertebrate Fossil-Bearing Strata in the Gobi Desert, Mongolia
P-12	Nishimura, R., Aoki, K., Kogiso, T., Saneyoshi, M., Batsaikhan, B., Mainbayar, B., Tsogtbaatar, K., and Chiba, K.	Apatite U-Pb Age of the Baynshire Formation, Gobi Desert, Mongolia, Using Fossil Teeth
P-13	Uchida, M., Okoshi, T., Takahashi, A., Chiba, K., Batsaikhan, B., Mainbayar, B., Zorigt, B., Saneyoshi, M., and Tsogtbaatar, K.	Development of an Efficient Cleaning Technique for Small Vertebrate Fossils from the Bayanshiree Formation, Mongolia
P-14	Takada, K., Iimura, T., and Kobayashi, Y.	AI-Driven Segmentation and GIS Mapping of Bone Microstructures
P-15	Hoshino, M., Uesugi, K., and Takeda, Y.	High-Energy X-ray Micro-Imaging at SPring-8 and Its Application to Non-Destructive High-Quality Visualization of Paleontological Samples
P-16	Maruyama, S., Takahashi, K., and Tsukamoto, A.	Education of Vertebrate Paleontology for Visually Impaired Children -the Case of the Chiba Prefectural School for the Visually Impaired and Chibanian-
P-17	Nishi, H., Kamiya, T., Ando, H., Noriki, S., Oishi, Y., Kawabe, K., Shibata, M., Takata, H., Tsuchiya, M., Imai, T., Nakamura, H., Hattori, S., Oyama, N., and Kinoshita, S.	Faculty of Dinosaur Paleontology, Fukui Prefectural University: a New Hub for Dinosaur Paleontology Education and Research in Japan

Poster Session		
	Authors	Presentation Title
P-18	Kim, S-H., Lee, Y-N., Nam, G-S., Park, J-Y., and Lee, S.	A New Species of Ptycholepididae (Osteichthyes, Actinopterygii) from the Upper Triassic Freshwater Deposits of South Korea
P-19	Deyama, Y., Shibata, M., and Sekiya, T.	Ganoid Scales Morphotypes Suggesting Diverse Fish Taxa from the Lower Cretaceous Kitadani Formation of the Tetori Group, central Japan
P-20	Saito, M., and Shibata, M.	Preliminary Report of Sinamiid Fish Fossil from the Lower Cretaceous Kitadani Formation, Tetori Group, Japan
P-21	Morozumi, Y., Tanaka, K., Matsumoto, H., Makhmudov, S., and Fedorov, Y.	Fossil Ichthyofauna from the Upper Cretaceous Bissekty Formation in Uzbekistan and Faunal Changes from Cenomanian to Turonian
P-22	Tanaka, M., Kobayashi, Y., Eda, M., Izumi, H., Kikuchi, H., and Sun, G.	Identification of East Asian Crocodylian Collagen from the Tianluoshan Archaeological Site of China
P-23	Pisaipan, P., Nimnate, P., and Manitkoon, S.	Paleoenvironment of Meandering River System and Vertebrate Fauna Fossil Assemblage from the Khok Kruat Formation at Ban Saphan Hin Fossil Site, Nakhon Ratchasima Province
P-24	Kim, D-H., Park, J-Y., Choi, B-D., Jung, J., Kim, T., and Kim, J-W.	A New Goniopholididae (Mesoeucrocodylia: Neosuchia) from the Lower Cretaceous Nakdong Formation of South Korea: Its Implications for Terrestrial Locomotion in Goniopholidids
P-25	Bhuttarach, S., Martin, J.E., and Lauprasert, K.	New Postcranial Remains of Pholidosaurid Crocodylomorph from the Phu Kradung Formation of Thailand
P-26	Kim, DH., Kong, D-Y., Park, J-Y., Kim, S-H., Kim, M., Yoon, T., and Lee, Y-N.	A Carapace of <i>Pelodiscus</i> cf. <i>P. gracilia</i> (Testudines: Pan-Trionychidae) from the Middle Miocene Hageon Formation of Pohang-si, Gyeongsangbuk-do, South Korea
P-27	Sonoda, T., Miyata, K., Nakatani, D., and Kodaira, S.	Fossil Turtles from the Lower Part of the Mitsuse Formation (Campanian, Late Cretaceous), Nagasaki Prefecture, Southwestern Japan
P-28	Baasankhuu, S., Zorigt, B., Bayarmaa, B., and Tsubamoto, T.	Micro-Wear Analysis of the Late Eocene Brontotheriidae (Perissodactyla) from Mongolia
P-29	Yoon, T., Lee, Y-N., and Kim, S-H.	Insectivorous Mammal Molar from the Miocene Bukpyeong Formation, Donghae City, South Korea
P-30	Manitkoon, S., Pêgas, R.V., Nonsrirach, T., Warapeang, P., Lauprasert, K., Deesri, U., Tumpeesuwan, S., Wongko, K., and Zhou, X.	<i>Garudapterus buffetauti</i> (Pterosauria: Pterodactyloidea): the First Pterosaur in Southeast Asia with a Review of Flying Reptiles in the Khorat Group of Thailand
P-31	Ishikawa, A., Zheng, W., Imai, T., Hattori, S., Shibata, M., Kawabe, S., and Jin, X.	Cranial Anatomy of <i>Psittacosaurus houi</i> , a Long-Snouted Psittacosaurid from the Lower Cretaceous Lujiatun Unit of the Yixian Formation, China, with a Reevaluation of the Synonymy of <i>Hongshanosaurus</i>
P-32	Shibata, M.	Tooth Replacement Patterns of Ankylopollexian Dinosaurs
P-33	Ito, M., Kobayashi, Y., and Tsogtbaatar, K.	Dental Microwear of Non-Hadrosaurid Hadrosaurid Dinosaurs: Implications for Evolution of Diet and Chewing Mechanism in Ornithopoda
P-34	Yagura, T., Kobayashi, Y., Tsogtbaatar, C., Tsogtbaatar, K., Funston, G.F., and Currie, P.J.	Morphology and Preliminary Phylogenetic Position of a New Hadrosaurid Specimen from the Khuren Dukh Formation, Mongolia

Poster Session		
	Authors	Presentation Title
P-35	Takuwa, S., Kobayashi, Y., and Tsogtbaatar, K.	The Paleobiogeography of the Titanosaurian Sauropods in Asia of the Late Cretaceous Based on Redescription of Mongolian Sauropods
P-36	Furutani, S., Iwami, Y., Tomita, N., and Kawabe, S.	Three-Dimensional Digital Analysis of the Air Sacs in Black-Tailed Gull (<i>Larus crassirostris</i>)
P-37	Lee, S., Lee, Y-N., Park, J-Y., Kim, S-H., and Zorigt, B.	Bite Marks on <i>Natovenator polydontus</i> Indicate Possible Intraspecific Aggression
P-38	Chowchuvech, W, Manitkoon, S., Chanthasit, P., Chokchaloemwong, D., Kosulawatha, W., Somboon, B., and Ketwetsuriya, C.	Reevaluation of the Taxonomic Position of <i>Siamosaurus suteethorni</i> and the Morphology of Spinosauridae Dentition
P-39	Piditaku, P., Kangnok, A., Sopo, P., and Chokchaloemwong, D.	The Classification of Isolated Theropod Teeth from the Early Cretaceous Sao Khua Formation, Thailand
P-40	Samathi, A., Puntanon, K., and Suteethorn, S.	Evolution and Paleobiogeography of Asian Spinosaurids (Dinosauria: Theropoda)
P-41	Kuroki, A.A., Sullivan, C., and Currie, P.J.	Dental Features of <i>Atrociraptor marshalli</i> , the Upper Cretaceous Small dromaeosaurid from the Horseshoe Canyon Formation
P-42	Shoyama, K., Ikegami, N., and Tanoue, K.	Affinity of a Dinosaur Femur from the Upper Cretaceous Mifune Group with the Therizinosauria
P-43	Shimizu, S., Azuma, Y., Kobayashi, Y., and Tsogtbaatar, K.	First Report of a Multitaxic Bonebed from the Upper Cretaceous Bayanshiree Formation of Mongolia and Its Implication for Dinosaur Diversity in the Urtibe Khudik Locality
P-44	Mainbayar, B., Fujita, M., Takasaki, R., Tsogtbaatar, K., Zorigt, B., and Ishigaki, S.	Sauropod, Theropod and Ankylosaurus Tracks from the Lower Cretaceous of Mongolia -Rediscovery of the First Dinosaur Tracksite in Northern Mongolia After 70 Years-
P-45	Yoon, H.S., Kim, H.W., Park, J-Y., Jung, S-H., Kong, D-Y., and Lee, Y-N.	First Reports of a Probable Ankylosaurian (Thyreophora) Trackway from the Jindong Formation (Cenomanian) of Goseong County, South Korea
P-46	Chanthasit, P., Manitkoon S., and Somboon C.	Vertebrate Diversity and the Jurassic-Cretaceous Transition: Fossil Record from Kalasin, Northeastern Thailand
P-47	Chanthasit, P., Khansubha, S-O., Sekiya, T., Sonoda, T., and Yukawa, H.	A New Chapter in Fossil Discoveries from Manchakhiri, Khok Kruat Formation (Early Cretaceous), Khon Kaen, Northeastern Thailand
