

26th	Lecture Hall			
	Keynote Lecture I			Moderator
09:40-10:30	A-1	Xu, X.	In Memory of Professor Dong Zhiming	Yoshikazu Noda
10:30-10:50	Break			
10:50-11:10	B-1	Park, J-Y., Son, M., Lee, Y-N., Lee, S., Kim, S-H., and Tsogtbaatar, K.	<i>Pinacosaurus</i> and the Two-Body Problem: A Taxonomic Revision of <i>Pinacosaurus</i> , and a Discussion on Two Tentative <i>Pinacosaurus</i> Postcranial Specimens from the Upper Cretaceous Djadokhta Formation of Mongolia	Ryuji Takasaki
11:10-11:30	B-2	Miyashita, T., Mallon, J.C., Niu, K., and Xing, L.	Anatomy of an Ankylosaurine <i>Datai yingliangis</i> and the Analysis of Instability in Ankylosaur Phylogeny	
11:30-11:50	B-3	Sakane, K., Kuwabara, S., and Kawabe, S.	Description of the <i>Triceratops</i> specimen exhibited in the Itabashi Science and Education Hall, Japan	
11:50-12:10	B-4	Tada, S., Tsuihiji, T., Ishikawa, H., Wakimizu, N., Kawabe, S., and Sakane, K.	Nasal Soft-Tissue Anatomy of <i>Triceratops</i> and Other Ceratopsid Dinosaurs	
12:10-13:10	Lunch			
13:10-13:30	D-1	Kochi, T., Kawabe, S., Imai, T., Shibata, M., Hoshino, M., Uesugi, K., and Evans, D.C.	Three-Dimensional Visualization of Ankylopellexian Dental Histostructure Based on Synchrotron Analysis	Jin-Young Park
13:30-13:50	D-2	Shingai, T., and Shibata, M.	Morphological Character of Mammillation on Dentary Tooth of Thailand Iguanodontia <i>Shringra khoratensis</i>	
13:50-14:10	D-3	Takasaki, R., Evans, D.C., Tsogtbaatar, K., Chiba, K., Chiarenza, A.A., Hirasawa, T., Saneyoshi, M., Tsogtbaatar, C., and Zorigt, B.	A Large Hadrosauroid Skull from the Late Cretaceous Bayanshiree Formation of the Gobi Desert (Mongolia)	
14:10-14:30	D-4	Sugimoto, A., Nakagawa, R., Sekiya, T., and Shibata, M.	New material and Redescription of the Sauropod Dinosaur, "Tobaryu", from the Lower Cretaceous Matsuo Formation, Toba City, Mie Prefecture, Japan	
14:30-14:50	Break			
14:50-15:10	F-1	Chokchaloemwong, D., Hattori, S., Shibata, M., Cuesta, E., Nakrsri, W., Kawabe, S., Yukawa, H., Sekiya, T., Sonoda, T., Noda, Y., Jintasakul, P., and Azuma, Y.	The Discovery of Theropod Fossils in Khorat Global UNESCO Geopark, Nakhon Ratchasima, Thailand	Tzu-Ruei Yang
15:10-15:30	F-2	Manitkoon, S., Sethapanichsakul, T., Khansubha, S-O., and Hanta, R.	Exploring the Titans: the Last Sauropod Dinosaurs from Thailand and Engaging Communities in Geoparks	
15:30-15:50	F-3	Sethapanichsakul, T., Manitkoon, S., Khansubha, S-O., Hanta, R., Mannion, P.D., and Upchurch, P.	A New Sauropod Dinosaur from the Lower Cretaceous Khok Kruat Formation of Thailand Sheds Light on Somphospondylan Titanosauriform Diversity in Southeast Asia	
15:50-16:10	F-4	Boonjarern, T., Kaikaew, S., and Suteethorn, S.	Tooth Morphology and Replacement Rate in an Early Cretaceous Sauropod from Thailand: Based on µCT Scan Data	
16:10-16:30	F-5	Chowchuvech, W., Manitkoon, S., Chanthisit, P., and Ketwetsuriya, C.	Titan's Teeth Tell the Tale: An Investigation on Isolated Sauropod Teeth from the Late Jurassic to Early Cretaceous Khorat Group of Thailand	
16:30-16:40	Break			
16:40-17:10	H-1	Zorigt, B., and Ishigaki, S.	In Memory of Dr. Rinchen Barsbold (1935–2025)	Yoshikazu Noda

26th	Multipurpose Hall		
	Technical Session II: Reconstructing the Mesozoic of Japan		Chairperson
10:50-11:10	C-1	Ando, H.	Cretaceous Stratigraphical Correlations of Backarc, Intra-/Inter-Arc, and Forearc Basins within the Paleo-Japan Cretaceous Continental Arc-Trench System: Basic Stratigraphical Data for Reconstructing Cretaceous Paleoenvironment Including Dinosaurs
11:10-11:30	C-2	Momozaki, A., Maeda, H., and Oyama, N.	Revised Ammonoid Biostratigraphy of the Lower Jurassic Nishinakayama Formation, Toyora Group, Yamaguchi, Japan
11:30-11:50	C-3	Tanoue, K.	Dinosaur Fauna from the Lower Cretaceous Wakino Subgroup, Kanmon Group in northern Kyushu, Japan
11:50-12:10	C-4	Ikegami, N.	A Review of Dinosaur Fauna from the Mifune Group in Kumamoto Prefecture, Japan
Lunch			
12:10-13:10	Technical Session IV: Early Cretaceous Land of Fukui		Chairperson
13:10-13:30	E-1	Yano, H., Nakamura, H., Yukawa, H., and Ando, T.	A Chemotaxonomic Approach to the Mesozoic Paleovegetation in Kitadani Dinosaur Quarry (Lower Cretaceous, Japan): Interpreting Biomarker Signals of Vegetation Heterogeneity and Wildfire
13:30-13:50	E-2	Sekiya, T., Yukawa, H., and Shibata, M.	Growth Stage of <i>Fukuititan nipponeensis</i> Revealed from the Limb-bone Histology
13:50-14:10	E-3	Hattori, S., Shibata, M., Sekiya, T., and Azuma, Y.	Reassessment of <i>Fukuiraptor kitadaniensis</i> and Its Phylogenetic Implications
14:10-14:30	E-4	Tsukiji, Y., and Azuma, Y.	A Review of the Kitadani Dinosaur Ichnofauna from the Lower Cretaceous of Central Japan
Break			
14:30-14:50	Technical Session VI: Mesozoic Fauna and Flora		Chairperson
14:50-15:10	G-1	Kubo, T., and Kubo, M.O.	Recent Advances in Dental Microwear Texture Analysis of Archosaurs
15:10-15:30	G-2	Nakamura, T., Shibata, M., Naksri, W., and Chokchaloemwong, D.	New Pterosaur Maxilla from the Khok Krat Formation, Nakhon Ratchasima, Thailand and Its Palaeobiogeographical Implication
15:30-15:50	G-3	Kim, M., Jung, J., Jo, H., Joyce, W.G., Park, J-I., Jung, H-Y., and Min, H.	The First Carettochelyid Turtle from South Korea Provides New Insights into the Plastral Expansion of Carettochelyidae
15:50-16:10	G-4	Okoshi, T., Takahashi, A., Chiba, K., Takasaki, R., Nishimura, R., Saneyoshi, M., Batsaikhan, B., Mainbayar, B., and Tsogtbaatar, K.	Late Cretaceous Mammals from the Bayanshiree and Javkhlan Formations, Gobi Desert, Mongolia
16:10-16:30	G-5	Sasaguchi, K., Acorn, J.H., and Sperling, F.A.H.	Reconstructing Late Cretaceous Environments in Alberta, Canada, with Paleocene Insect Assemblages and Diversity

Takuya Imai

Tai Kubo

Nozomu Oyama

27th	Lecture Hall			Moderator
	Keynote Lecture III			
09:00-09:50	I-1	Currie, P.J.	Theropods from the Djadokhta, Baruungoyot and Nemegt Formations of Mongolia	Soichiro Kawabe
Break				
09:50-10:10	Technical Session VII: Dinosaurs			Chairperson
10:10-10:30	J-1	Słowiak, J., and Szczygielski, T.	Raising Monsters: the Growth Trends in Tyrannosauridae	Duangsuda Chokchaloemwong
10:30-10:50	J-2	Raun, G.S., Sharpe, H.S., and Currie, P.J.	The Teenage Alarming Lizard Hero: Adolescent <i>Tarbosaurus bataar</i> Individual Provides Clarity into the Ontogeny of Discrete Characters	
10:50-11:10	J-3	Maranga, D.C.A., Evans, D.C., Chen, J., and Reisz, R.R.	Exceptionally Preserved Microraptorine (Theropoda: Dromaeosauridae) from the Early Cretaceous of China Provides New Data on Cranial Anatomy and Dental Morphology in Microraptorinae	
11:10-11:30	J-4	Imai, T., Tada, S., Kawabe, S., Hattori, S., Hoshino, M., Sakane, K., and Evans, D.C.	Revisiting the Anatomy of a Juvenile Troodontid Dentary Based on a Historic Specimen, ROM 1445	
11:30-11:50	J-5	Uno, Y., Xu, X., and Hirasawa, T.	Evolution of the Propatagium in Theropods	
Poster Session with Lunch (at Student Hall)				
11:50-13:35	Symposium Session			Moderator
13:35-13:40		Shibata, M.	Introduction	Masateru Shibata
13:40-14:10	L-1	Kawabe, S.	Advancing Dinosaur Paleontology in Fukui: Applications of CT Technologies	
14:10-14:40	L-2	Witmer, L.M.	Fleshing Out Dinosaurs: 3D Imaging of Extant and Extinct Species to Reconstruct Soft-tissue Systems, with Special Reference to the Nasal Cavity and Brain in Diverse Asian Dinosaurs	
14:40-15:10	L-3	Suteethorn, S., Samathi, A., Boonjarern, T., Joongpan, C., Kaikaew, S., Chaitongsri, K., Srikampa, P., Sutchai, K., Puntanong, K., Suteethorn, V., and Sander, P.M.	Diversity of Sauropodomorph Dinosaurs in Southeast Asia	
15:10-15:30	Break			
15:30-16:00	L-4	Zanno, L.E., Tucker, R.T., Hyland, E.G., Suarez, C., Tsogtbaatar, C., and Gates, T.A.	The Impact of Climate Change and Biogeographical Exchange on the Evolution of Cretaceous Dinosaur Ecosystems	Masateru Shibata
16:00-16:30	L-5	Cuesta, E.	Laurasia and Gondwana Averostran Theropods: What Can Be Inferred about their Phylogeny, Palaeobiogeography, and Palaeobiology from the Fossil Record of Asia, Europe, and South America?	
16:30-16:50	Panel Discussion			

27th	Multipurpose Hall		
	Technical Session VIII: New Approaches		Chairperson
10:10-10:30	K-1	Su, C-Y., Liao, J-Y., Wu, H-J., Chou, K-Y., Chen, C., Ming-Lee, T., and Yang, T-R.	Heat Transfer Simulations of an Oviraptorid Clutch Reveal the Effect of Clutch Configuration on Hatching Pattern
10:30-10:50	K-2	Ouilapan, S., Chanthisit, P., and Wongchun, S.	<i>In Situ</i> Fossil Site Museums of Asia-Pacific: Challenges and Conservation Efforts
10:50-11:10	K-3	Hanta, R., Arsairai, B., Sekiya, T., Nulay, P., and Ditbanjong, P.	Stratigraphic and Paleontological Reassessment of the Nong Bua Daeng, Chaiyaphum Province, Northeastern Thailand: Implications for Late Triassic to Early Jurassic Dinosaur Evolution
11:10-11:30	K-4	Sutcha, K., Suteethorn, S., Liard, T., and Ditbanjong, P.	The Oldest Known Dinosaur Evidence of Southeast Asia: The Late Triassic Theropod and Sauropod Tracks from Thailand
11:30-11:50	K-5	Yamaguchi, K., Kubo, T., and Kubo, M.O.	Temporal Changes in Sauropodomorph Foot Morphology and Graviportal Adaptations Under Gigantism Inferred from Trackways
Poster Session with Lunch (at Student Hall)			
11:50-13:35			

Sita Manitkoon
